**STRENGTHS IN WORK:**

She is interested in the subject matter, she is positive and respectful
---

**SUGGESTIONS FOR GROWTH:**

She seems a little afraid to approach the students, still unsure about her knowledge of the content - which I am sure is fine, she needs to show confidence. Her schedule did not permit her to be here very much, it is hard to create relationships or connect with the content when observations / experiences are once a week with missed weeks in between.
